

Our Own 1 Acre Vegetable Garden

One of the major features of Pharos Summertime Villa is our own vegetable garden. Terraced plots provide many of the fresh vegetables that our chefs serve in our menu.

Food / Sample Menu

Delicious home cooked meals prepared by the Summertime Villa chefs are served on Royal Worcester and Royal Dalton china on the open-air poolside veranda. As a special treat on moonlit nights, meals are served on the terrace beyond the pool overlooking the romance of lights reflecting across the bay. Memorable dinners here can last for hours as guests relax into the heady ambiance of good food and drink, excellent service and a magnificent setting.

If there is anything you would like that is not shown on the menu, you need only to describe the dish or show our cook how you wish any special requests made. Our cooks will be happy to prepare them for you.
